

# Q.C. Lab Kit

**INTRODUCTION**

Paramount Q.C Lab Kit includes the essential equipments required for general quality control Lab in Textile Mills, Commercial Laboratories, Colleges & Universities.

**EQUIPMENT**

Paramount Q.C Lab Kit includes pick glaess, magnifier, pocket microscope, sissores, densimeter, quick cut, cutting mat, steel scale, measuring tape, calculator & stapler for general quality analysis.

**SALIENT FEATURES**

- Specially designed Q.C lab kit consists of daily used equipments in Textile laboratories for sample preparation & general analysis of yarns/fabrics.
- Two different type of pick glasses, & densimeter to check the construction of any type of fabrics..
- Two different types of magnifying glasses & pocket microscope included for fabric & yarn defects analysis.
- Two scissor, one stapler & Quick Cut with cutting pad & spare blade supplied for sample preparation.
- Steel scale & measuring Tape for the analysis of measurement.
- Calculator for calculations.

**Unpacking of Q.C Lab Kit**

Pick Glass PG 001	: 1 No
Pick Glass PG 007	: 1 No
Magnifier MG006	: 1 No
Magnifier MG006	: 1 No
Pocket microscope PM 002(50x)	: 1 No
Scissor PS001	: 1 No
Scissor PS002	: 1 No
Densimeter DM 001	: 1 No
Quick Cut	: 1 No
Cutting Pad	: 1 No
Cutting Blade (for Quick Cut)	: 1 No
Stainless Steel Scale 1 Mtr	: 1 No
Measuring Tape 2 Mtr	: 1 No
Measuring Tape 1.5 Mtr	: 1 No
Calculator	: 1 No
Stapler	: 1 No
