

swatchCUTTER 300™ (Fabric Sampling (Pinking) Machine)

INTRODUCTION

PARAMOUNT swatchCUTTER 300™ is an accurate & convenient Equipment for preparing swatches with pinking edges in multiple layers to a depth of 20 mm (0.8") and width of 300 mm (12").

EQUIPMENT

PARAMOUNT swatchCUTTER 300™ is a user friendly versatile Swatch Cutting Machine for making swatches upto 300mm (12") wide quickly & conveniently. The specially designed Equipment can cut swatches in multiple layers up to a depth of 20mm. It can make samples out of any type of fabric (woven/knitted or non woven) with the special imported Italian scissor. The equipment is mounted on a strong & sturdy table for ease in operation. The sample sizes can conveniently determined by the graduated screen fixed on the fabric guide bar. The cutting area is fully protected by a transparent acrylic sheet for safety, which also helps the operator to view the cutting operation. The specially designed cutting board is provided to support the sample to cut & long life of the blade. A specially designed long handle is attached with the equipment for smooth cutting with minimum operator fatigue. The equipment is meticulously finished in blue & grey paint to give a gorgeous look.

SALIENT FEATURES
